

MittX

THE MITTX BAR

CONSTRUCTION AND AGRICULTURAL MACHINERY

THE ORIGINAL

MODEL-SPECIFIC QUALITY

When you choose a MittX bar, you get a Swedish-manufactured high-quality product where great emphasis has been placed on **design**, **safety** and **performance**. Each MittX bar is designed and developed to fit your specific machine. With high-quality components and a bar made of Hydro Restore aluminum, we offer a product with low environmental impact and long lifespan. As a bonus, you receive a 5-year warranty. We call it model-specific quality.

PRODUCT TYPES

MittX

THE MITTX BAR

DESIGN

MittX bars are designed to follow the machine's contours and create a sense of integrated equipment. We always strive for a timeless design that endures. Our goal is for you to equip your machine with high-quality products that last—sustainability is our priority.

SAFETY

Your safety is important to us. Strong work lights and strategically placed flashlights not only help you see well but also ensure you are highly visible.

Whenever possible, the design of our bars is based on the machine's existing mounting points. This means no modifications are made to the machine's chassis or other parts, which could potentially weaken its construction.

PERFORMANCE

Our accessories are carefully selected to enhance the performance of your machine and create optimal conditions for you to work in tough environments. With bars and accessories that are quality-tested and developed based on customer needs, you ensure that you can accomplish the tasks required of you and your machine.

CUSTOMIZATION AND ACCESSORIES

Colours

MittX bars are powder-coated in a modern paint facility to ensure the highest possible quality and finish. We offer our customers a wide selection of RAL colours.

The most common colours are Black, Grey, Orange, Red, White, Blue, Yellow. Do you have a specific colour request? Contact your dealer.

Warning lights

Our bars are now equipped with IP69K-certified warning lights. You won't find more durable warning lights! During tough and dirty workdays, you can rely on our lights to brighten up your day.
